10. **Up to a Kosciusko view the easiest way: See Walk 10 attachment below**
11. **UP THE MOUNTAIN THE EASIEST WAY TO THE EAGLES NEST:** follow Walk 10 to the end of the Cat Walk then turn left up route 4 on the ski map to Eagle Way. Turn left up Eagle Way to the top station
12. **Up the Schuss run on the ski map:** follow Walk 10 to the mid Gondola Station then walk left to the bridge and then up to the Merritts Restaurant. Follow any hiking track, road or ski run down.

WALK 10 ATTACHMENT:

WALK 10: UP THE MOUNTAIN THE EASIEST WAY – TO A VIEW OF KOSIUSCKO AND THE ETHRIDGE RANGE to the NW and MT TWYNHAM and MT STIRLING (CHARLOTTE'S PASS) to the NE

TRACK NOTES: This track is not a recognised walking track but is used as a service track for the MTB trails and nature trails for much of the way.

THE WAY UP:

1. Start at Tombarra
2. Cross the river and turn left onto the walking path by the fence
3. Turn right, or east, at the intersection with the track from the Bobsled and head along Riverview Terrace
4. Turn left onto Mountain Drive and start up the hill to a gate (walk to the creek to have a look at the rockpool on Merritts Creek in case you need it on the way back)
5. Proceed up the road on the ski slopes then into the trees until you reach the lift station on Snowgums lift
6. Keep going up slowly and turn right, or north, onto a track called the Bunny Hop. It is not a road. (The road goes right onto the run called the Cat Walk a bit further up. You will get onto it later.)
7. Walk up to the signposted nature track then head up to the picnic table with a view of Merritts Gorge.
8. From the picnic table head up the nature trail then turn right, NE, onto the road, Cat Walk.
9. Stop at the bridge over the bridge at Merritts Creek for a view of the rapids/waterfalls then walk up to the T-bar track (Sponars), then up it until you nearly get above the trees then turn right, NE, along a ski run to the Antons T Bar.
10. Then head up on the side of the ski run until you hit a road headed to the east.
11. Leave the road and walk up towards the saddle and then to the rocks a few hundred metres on. If your vision of Kosi, to the MW, is obscured then move to the right until you can look over the flat bit, or walk up to the next line of rocks (part of the Ramshead Range). In front of Kosi is the Ethridge Range. Mt Sterling (Charlottes Pass) is in the foreground to the NW and Mt Twynham in the background to the NW. Twynham is the one behind Blue Lake. To the Left of it you may pick out Carruthers Peak and then further left, west, Mt Townsend.

THE WAY DOWN:

1. Walk back along side the line of rocks to your left, east, until you see the ski runs on Merritts Spur.
2. Head down to the road and then to the sign for Walkabout or Valley View and continue to the top of the Gondola.
3. From the Gondola walk up a little to the signs for Dream Run
4. Then down to the bridge
5. Then out to the wide ski run and back to the mid station for the Gondola
6. Head south and head down the nature track on the left to the bridges at the rockpool.
